

## **1. Introduction**

I will make an application about selling local brands so that they can be known globally, be it regional cakes or village souvenirs

## **2. Expected Features List**

Its distinctive feature is that there is a list of regional cakes or village souvenirs accompanied by easy payments.

## **3. Market Survey**

As for the target market, people who visit our area can buy souvenirs from us without having to bother looking for existing sellers

## **4. Reference**

for reference nothing but from his own idea for the model that the references from the company shopee, tokopedia, etc.
